Subject: FW: Alt-En Ethanol Plant -- Nebraska NDEQ's ASR Form
Attachments: Alt-En -- Analytical Services Request (ASR) Form.pdf; RE: NDEQ Request for Analytical Services on Quick Turnaround Project.

I will use the Alt-En ASR.pdf above with the information you provided in the above NDEQ Request for Analytical Services Outlook item to generate the ASR in our Region 7 LIMS.

Thank you for the information. I will get this generated and processed as soon as possible.

Thank you...Nicole

Subject: Alt-En Ethanol Plant -- Nebraska NDEQ's ASR Form

Tabatha, Mike, and/or Nicole:

I could not get the sample details box at the bottom of the form to populate / allow editing. If the form is adequate otherwise I can either print it and write in the sample details by hand or if you are willing to add that info by hand that would be wonderful. The details are: Two wastewater samples, one wet-cake sludge, and one seed corn composite sample, each being analyzed for total and TCLP metals, and also each for the additional mercury total and TCLP analyses.

Let me know if you need anything changed or added to the form.

Thanks for being responsive to this time critical project.
